RE: CN-159 Meadowlands Railroad and Roadway Improvement Project  
Platform Fencing and Railings

Dear Mr. Camarena:

On behalf of RCC Fabricators, Inc. I wanted to take a moment to write and thank you and the rest of the Metalco team for a job well done manufacturing the platform railing panels and platform fencing for this project. During the production phase of this project Metalco repeatedly showed diligence and dedication in providing us with a quality product and on time delivery.

As with any large scale construction project issues arise along the way that effect production and delivery but Metalco was always willing to work with us to overcome any of the obstacles encountered. Your attention to the specifics of this project resulted in a job well done.

Again, I would like to express my gratitude for your contributions in making this project a success. We would not hesitate to refer Metalco to any other contractor or owner in need of quality fencing and railing products. We look forward to working with you and the rest of the Metalco team in the future.

Sincerely  
**RCC Fabricators, Inc.,**

Jeffrey Smilek

RE: Meadowlands Stadium Project

Dear Ms. Zielinski:

Please accept this as our letter of recommendation for all the work that was done on the Meadowlands Stadium project. The high quality of work and excellent customer service was a big part of the project staying on schedule.

It was a pleasure to work with Atlantis Products / Metalco and we look forward to working with you on future projects.

Thank you, again, for all the extra effort that was given on this project.

Sincerely,

**Nashville, TN**  
SII Job No. 9806

Dear Gerhard,

The purpose of this letter is to let you know that Standard appreciated the opportunity to work with you, Chris and METALCO on such a large and complex project as the TN NFL Stadium.

This project had several thousand Grigliato panels that METALCO furnished. The accuracy measurements and quantities of the custom ordered panels is simply amazing. This is because of METALCO's years of experience and attention to detail.

Thanks for helping Standard Iron to complete this project on time and within our budget. We look forward to working with METALCO in the future.

Very truly yours,  
**Standard Iron, Inc.**

*If You Can Dream It, We Can Build It.*

To Whom It May Concern:

We wish to take this opportunity to thank your company for the excellent job that was done for the Philadelphia Phillies Stadium.

The project was exceptionally demanding and took much planning and coordination. METALCO rose to the challenge and provided superior material and excellent customer service all in a professional and timely manner. We hope there will be other opportunities to work with your firm again in the near future.

Many Thanks!!

Re: METALCO

To Whom It May Concern:

For the past five years we have enjoyed a professional relationship with METALCO. They have proficient estimators that have competitive pricing which has helped us in securing projects such as Citizens Bank Ballpark, Amtrak Intermodal Gateway, SEI Investments Corporate Center, John Witherspoon School and the Philadelphia Academy of Performing Arts just to name a few.

From the engineering perspective they're accurate, timely and knowledgeable. They have a helpful staff with an on time delivery, which is essential for construction projects. Their finished product is always clean with consistent welds, which always provides client satisfaction. The product is easy to install which helps to reduce labor costs.

Very truly yours,

Mr. Gerhard Schiller  
President  
METALCO Fence & Railing Systems  
8185 S. Cass Ave  
Darien, IL 60561

Dear Gerhard

I wanted to take a moment and personally thank your company for its outstanding efforts with the new NFL Pittsburgh Steeler Stadium

As we all know from experience, design-build projects can be very demanding. This is especially true with large facilities such as Heinz Field. Much planning, coordination and unfortunately, changes are required for the project to be successful. However, with companies like METALCO, the demands of the projects are much easier accomplished. You, Gerhard, Glenn and everyone else involved should be proud of the professional attitude and work that is conveyed.

Once again, I personally thank everyone at METALCO for their superior work on Heinz Field. I hope to work with you again in the future.

Please feel free to use this letter as a reference for other potential customers. I am confident that their experience will be similar to mine.

Sincerely,

James M. Rosgony  
Project Manager
